

For Londoners on foot, we want :

- **Streets fit for walking** – wider pavements, safer crossings, putting people before traffic
- **Attractive town centres and high streets** – vibrant places where people want to spend their time and shop
- **Liveable neighbourhoods** – creating streets for residents, ending through traffic
- **Healthy streets and cleaner air** – enabling all Londoners to live healthier lives
- **Safer streets and Vision Zero** – a future with no deaths or serious injuries on our roads
- **Lower speeds** – 20mph default speed limit for London
- **Less traffic** – giving a green light to road pricing across the whole of London
